## Catching on: An audit of vaccination catch up schedules developed for general practice

## Results

## **Outcomes**

- Weekly meetings at the Public Health Unit to discuss catch ups.
- Catch up vaccination remain difficult for some GP staff, despite comprehensive advice available.
- Possible factors difficulties include:
  - knowledge deficits
  - inadequate time/human resources
  - inadequate remuneration
  - technological issues
- Development of targeted education and innovative systems would improve GPs skills in catch-up vaccination provision and adherence to recommendations.
